Pub Date: December 2012 Pages: 241 Language: Chinese in Publisher: Science Press institutions of higher learning in the 21st century materials: a modern logistics system modeling, simulation and application case sought from the point of view of both theory and Projects Logistics relatively comprehensive introduction system modeling, simulation and engineering application. we place emphasis on modeling and simulation methods and technology, and management decision-making problems based on the logistics system. Especially production logistics, cited the case of discrete lines, distribution centers, automated library and sorting operations case of long-term research, school-enterprise cooperation and teaching accumulation representative. The above case, the ability to train students to use the logistics system simulation software design and optimization of logistics nodes, extensive practical teaching, Promoting the Development and train students theory with practice and the ability to have a good guide. With the book with electronic courseware as well as book case model, in order to facilitate the use of the reader. Institutions of higher learning teaching materials of the 21st century: a modern logistics system modeling, simulation and application case used as a textbook for logistics management, logistics, engineering, systems engineering, management science and engineering undergraduate or graduate, also available in other areas students, scholars and reference. Contents: Preface Chapter 1 System Simulation basic 1.1 system, model, simulation Overview 2.3 manually 1.2 system simulation 1.3 logistics system simulation and solve the problem of thinking title Chapter 2 Discrete Event System Simulation logistics system simulation 2.1 Overview 2.2 discrete event system simulation algorithm Simulation 2.4 table thinking questions on a typical logistics system modeling and simulation methods to handle 2.5 Simulation example 3.1 queuing system modeling and simulation 3.2 Inventory System Modeling and...
